(54) ROOM CLEANING TOOL HAVING REMOVABLE TIP ATTACHMENT

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a room cleaning tool having advantages of both a mop-type cleaning means and a hand-type cleaning means capable of facilitating attaching/detaching of a tip attachment to/from a handle, easily holding by a hand, and fitting a brush mop, a fabric mop, a paper sheet, a fabric sheet, or the like.

SOLUTION: The room cleaning tool having removable tip attachment is composed of the tip attachment comprising a mop head and a roller head, a telescopic handle formed by a plurality of pipes nested and by fitting joints to joined parts of the pipes so as to freely extend/contract, and a set of a projected part and a recessed part. A coupler is provided on a tip attachment side and a telescopic handle side so as to attach/detach the tip attachment and the telescopic handle in one operation.
